

Learning Session: BSCI 2.0 Implementation in My Company

Overview

This session will share experiences of implementing BSCI 2.0 in companies to learn best practices. Focussing on the three cornerstones of BSCI 2.0: due diligence, continuous improvement, and embedding social responsibility into the business enterprise culture. Participants will be actively involved and learning of new ways to make BSCI 2.0 happen successfully in their own company at the same time. This session is of value to established BSCI participants and new participants alike.

Speakers:

Moderator: **Norma**, FTA NCG Coordinator, The Netherlands

- **Andrew Martin**, Senior Manager, Monitoring and Continuous Improvement - FTA
- **Dominique Barea**, Capacity Building Manager - FTA
- **Katarzyna Dobrogosz**, Capacity Building Officer – FTA
- **Adrian Poher**, Capacity Building Coordinator - FTA

Session Highlights

- New solutions to new problems for cascading issues, how implement cascading better, how to face buyin challenges, how to involved all the different stakeholders to work with on BSCI
- Empower all business actors in the supply chain by sharing knowledge and experiences, increasing competencies and capabilities for social compliance. Working together, creating interdependencies, being more transparent.
- The everlasting challenge in buy in: Who does it involve? Sales representatives, buyers, senior managers, shareholders and producers. Everyone has a different approach.
- Thinking outside the box, Need different thinking to address new problems, cannot use the same thinking for different problems. Albert Einstein: ***“It takes a different kind of thinking to solve a problem than the kind of thinking which produced the problem.”***
- Attendee comment: BSCI seen as a burden for producers.
Important to get CEO onboard, RnD, need necessary funds!
How apply new ways for thinking? Customers is a good driver? Customers need you to understand why they need to purchase from sustainable supply chains.
- **Adopt a user driven approach to challenges faced. Step into the shoes of the producer.**

Quotes

- Albert Einstein: *It takes a different kind of thinking to solve a problem than the kind of thinking which produced the problem.*
- **Adopt a user driven approach to challenges faced. Step into the shoes of the producer.**
- **Make CSR Fun**
